

Architectural Walls

nxtwall

Stylish + Sustainable

NxtWall's stylish architectural wall products offer unlimited opportunities to expand and redesign. With sustainability as our driving force, NxtWall has devised a component based system with zero waste. NxtWall's two distinct product lines; View Series and Flex Series, are integratable, versatile, and completely demountable. 100% reconfigurable and up to 100% recyclable, our products promote daylight harvesting and LEED building designs.

Fast + Flexible

NxtWall has the fastest lead times in the architectural wall industry. Our wall systems are also fast and easy to install – perfect for a quick office reconfiguration or an economic alternative to standard drywall construction. NxtWall architectural wall systems fit your budget and building needs.

Contemporary + Creative

Clean lines and user focused designs, NxtWall's Flex Series offers endless customization. You can change the height, materials, and finishes at any time. Combine solid or glass panels with storage or cabinetry components. Add a tackable fabric board or white board or get creative with nearly any material or design imaginable. Our clerestory configurations allow natural light to brighten any office.

Ease + Elegance

The sophisticated center pane glass walls and glass doors of NxtWall's View Series invite natural light into interior spaces. Highly adaptable to changing needs, the View Series' refined minimalism and unmatched visual impact, makes NxtWall an aesthetically superior choice.

Agile + Affordable

NxtWall offers the fastest quote and production turnaround time in the architectural wall industry, because we know --timing is everything. Our full service design and build teams deliver exactly what you want --when you want it-- at a competitive price.

Functional + Free-standing

If privacy is the answer, NxtWall can transform your wide-open space into the perfect office or conference room with our free-standing wall design. NxtWall architectural walls are flexible, functional and completely movable. Office space can be reconfigured overnight with minimal work interruption.

Custom + Classic

Nxtwall's View and Flex Series walls are always custom. They integrate with imperfect building conditions such as non-level floors, curvilinear layouts and out-of-plumb building columns. Details are in the design and NxtWall's innovative wall products can help you achieve the look you want; at a price you can afford.

Seamless + Scalable

NxtWall's View Series offers a seamless and clean design using either clear tempered, laminated or specialty glass. Scalable to fit, NxtWall architectural wall solutions can adapt to any situation with endless substrates, hardware and door options. This simple yet sophisticated architectural wall solution is an aesthetically superior choice for your workspace.
