Architectural Walls

the sustainable solution

NxtWall delivers flexible solutions with impressive views.

Nxtwall's Demountable Wall products deliver the only complete solution for the ever-changing needs of today's office. NxtWall products are positioned at the most competitive and realistic price while staying committed to sustainability by delivering on our fundamentals of Simple Kit of Parts and Zero Waste.

View Series - Nxtwall's Center Pane Glass Wall sheds light on the solution for sustainable and sophisticated architecture that is both distinctive and adaptable. The View Series creates clean contemporary spaces and instills performance while accommodating your needs as they change. View incorporates sliding and swing doors with unlimited hardware options to maximize space performance.

Flex Series - Flex technology consists of removable elements that allow for easy access to both infrastructure and work spaces. Change height and finishes from use to reuse with minimum work interruption. Choose standard materials such as glass or white boards, or insert recycled wood pallets, corrugated metal or stained glass...

Flexibility

- Ability to accommodate any design layout
- Eco friendly finishes
- Adaptable to floor level variances
- Height adjustable
- Integrates with existing construction
- Use as a complete solution

Seamless Glass Walls (View Series)

- Clear tempered, laminated or specialty glass walls
- Glass up to 1/2" thickness
- Endless door options and hardware
- Built in floor leveling
- Frameless corners
- Minimal lines and seams

Solid Pane / Glass Walls (Flex Series)

- Ease of change in wall materials (gypsum, glass, MDF, etc.)
- Reversible doors and door frames
- Custom materials for unique applications
- Integrate white boards and electronics
- Double Pane Glass for superior acoustical performance

Sustainability

- Supports LEED building design
- Reusable, reconfigurable
- 100% recyclable
- Supports Daylight Harvesting

NxtWall is your sustainable solution.
