

NxtProtect - Protective Glass Screens

NxtWall's new protective glass screen product line, NxtProtect, is a quick and easy solution to convert workspaces to a safer work environment by reducing the spread of germs and Covid-19 from face-to-face interactions. Offers superior aesthetics compared to cheap looking plexiglass.

* Speak-Thru optional.

Product Features:

- Protects employees and customers from contagion while engaging in face-to-face transactions
- Designed to be installed during high-risk season and removed when no longer needed
- 3/8" clear tempered glass with a curved profile for easy cleaning and sanitizing
- Non-permanent installation – no fasteners required and easy to install
- Glass cutout for document transactions
- Optional Speak-Thru*
- Glass can be sterilized to kill any lingering germs thereby keeping employees safe
- Clear anodized aluminum frame finish
- Customizable to your workspace – Cut to size per counter height
- A fast solution for retail checkout, bank teller windows, bench seating separation, healthcare reception desks, restaurant social distancing, and more
