

## County National Bank - Jackson, MI

Project 1

*"The NxtWall Team did a great job listening to what we wanted in all aspects of the project from design phase to installation. They delivered a product that not only looks great, but fits our unique design needs. The new walls are a nice complement to our existing plan and the private offices now let in more natural light. The Installation Team could not have been better! We are very happy with our new offices!"*

– Bruce Stroede, Facilities Manager of County National Bank

### **Project Profile:**

County National Bank was founded in 1934 in Hillsdale, Michigan. For over 80 years, County National Bank has sustained its deep commitment to the community and to its tradition of excellence in all aspects of banking. They work diligently, in their 13 full-service offices and two loan production offices, to provide outstanding customer service, a friendly atmosphere, and solid financial performance for the people of Mid-Michigan.

## County National Bank - Jackson, MI

### **Challenge:**

County National Bank needed to renovate and expand two different sites. Each presented its own unique challenges. The first project entailed adding private office space to an existing open floor plan. For the other project, County National Bank wanted to renovate an existing office configuration to let more natural sunlight in while providing employees with more office space. Each job had the added challenge of matching existing designs and finishes.

## County National Bank - Jackson, MI

### **Solution:**

NxtWall's Flex Demountable Wall Series was selected for both of County National Bank's projects because it can integrate with existing wall systems perfectly and also offer a wide selection of finish options. NxtWall was able to find the ideal match for County National Bank's current decor for both projects from our wide array of frame color, vinyl and laminate options. By using freestanding walls and segmented glass windows, more natural sunlight flows into the newly constructed private offices. There is now an improved use of space for better collaboration and customer interaction.
